In the table with technical data, the last column lists product codes. When placing an order, please remember to quote the product code followed by the configuration code as shown in the diagram below:

The construction of a water and dual fuel radiator product and configuration code:

WGPER096050

K916ZX

PRODUCT CODE (located in the table for the product)

CONFIGURATION CODE (supplemented by hand)

Example Configuration

Epoxy primer

E – Code of epoxy primer is an extra processes.

WGPER096050 K916ZX E—Extra processes or additions code

Legend

Radiator available in a "water" version.

Radiator suitable for dual fuel connection. Electric heating element can be installed.

Radiator available in electric only version. It comes prefilled with a 'heating medium' and equipped with a heating element. All tested and ready to use.

Connection types dedicated for this radiator. The icon shows the flow and return connections for the radiator as well as the thermostatic valve and heating element position if applicable.

Suggested heating element power output for electric and dual fuel versions.

Weight.

Capacity.

Available in chrome finish.

No additional payment for a color.
